## Welcome

Dear Colleagues,

We are pleased to enclose herewith the final programme of the **Cardiology Summit 2015**.

After 5 successful Cardiology Summits, we at India International Forum of Cardiology will take the 2015 Cardiology Summit to greater heights with a rich learning experience for both, the interventional as well as the clinical cardiologist.

Set in the scenic location of Cidade de Goa, the conference will encompass live in-box cases, panel discussions, debates and didactic lectures covering the areas of clinical cardiology, newer modalities in imaging, recent developments in ACS and heart failure. From drugs to devices, from heart transplant to areas of resistant hypertension, updates on dyslipidemia and cardiac arrhythmias, this Summit has it all.

The Cardiology Summit has CME accreditation points. The host of renowned faculty includes international speakers Prof. John Amerena, Mark Richards, Nishit Choksi, Patrick Jourdain and Rajesh Kharbanda.

Thank you for your interest and looking forward to your active participation in the **Cardiology Summit 2015**.

Yours sincerely,

**Cardiology Summit 2015**

**Dr. Brian Pinto**

Scientific Chairman
