# Welcome

---

Dear Colleagues,

We are pleased to enclose herewith the programme of the **Cardiology Summit 2017**.

After 7 successful Cardiology Summits, we at the India International Forum of Cardiology will take the Cardiology Summit 2017 to greater heights with a rich learning experience for both, the interventional as well as the clinical cardiologist.

The conference (September 9-10, 2017) will encompass live in-box cases, panel discussions, debates, didactic lectures and courtroom scenes covering the areas of clinical cardiology, newer modalities in imaging, recent developments in ACS and heart failure. From drugs to devices, from heart transplant to areas of resistant hypertension, updates on dyslipidemia and cardiac arrhythmias, the Summit will have it all, as also workshops on interventional cardiology.

The two-day conference has CME accreditation points. The host of renowned faculty includes international speakers Prof. Roberto Ferrari, Prof. Michael Boehm, Andre Keren, Ingrid Kindermann among others.

Thank you for your interest and looking forward to your active participation in the **Cardiology Summit 2017**.

Yours sincerely,

**Cardiology Summit 2017**

**Dr. Brian Pinto**  
Scientific Chairman
